Ieri – oggi – domani | Quando nel 1950, mio padre Gert creò Noël Marquet & Cie SA insieme al socio Raymond Marquet nel piccolo villaggio belga di Hauset, non avrebbe mai immaginato lo sviluppo che l'azienda avrebbe avuto nel giro di 70 anni. La piccola impresa di distribuzione di casalinghi e prodotti per la casa è diventata oggi un affermato gruppo aziendale specializzato nelle materie plastiche espansive, presente in oltre 100 paesi, con un impegno costante: ideare soluzioni che migliorano la vita quotidiana delle persone.

Grazie allo sviluppo di tecnologie innovative, gli elementi di decorazione inizialmente prodotti con metodi artigianali sono diventati accessibili ai più, con livelli di perfezione e di scelta senza precedenti.

Ora, con il nostro nuovo brand NOËL & MARQUET, compiamo un ulteriore passo in avanti. NOËL & MARQUET: un nome che cristallizza decenni di know-how nell'ideazione di prodotti di alta qualità e rappresenta di per sé un marchio di eccellenza in termini di qualità, servizio e consulenza tecnica. MANUFACTURING

QUALITY AND STYLE

Two manufacturing processes – two results: quality and style |

1 Foams For more elaborate, 3-dimensional forms with love for detail, we use aluminium moulds in which high-density polyurethane foam (ARSTYL®) is injected, resulting in precisely manufactured design elements particularly rich in detail or austere modern. We use this process also to produce our special FLEX mouldings as well as design elements (DOMOSTYL®) which are suitable for outdoor use.

2 Extrusion In the extrusion process, polystyrene is moulded in medium and high density to light (NOMASTYL®) or shock-resistant (WALLSTYL®) design elements. All design elements manufactured by means of extrusion are moreover waterproof and can therefore be used in damp areas without hesitation. Gluing surfaces and a primer facilitate the subsequent processing.

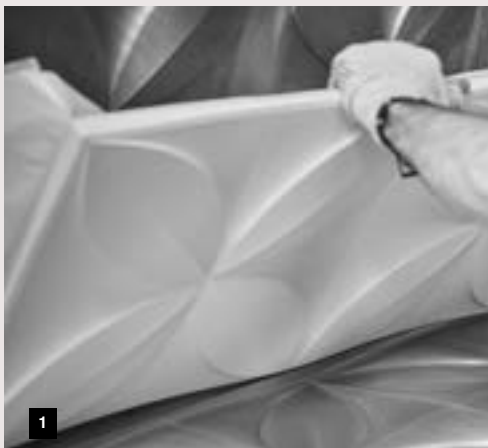

Whatever design elements you opt for, engineers, designers and staff are constantly working in development and production to meet the quality requirements of NOËL & MARQUET. Over 70 years of experience and a distinctly innovative spirit make the appeal, authenticity and quality of NOËL & MARQUET products simply unique.

Due processi di produzione, due risultati: qualità e stile |

1 Espansione Per le forme tridimensionali più elaborate, spronati dalla nostra passione per i dettagli, utilizziamo stampi di alluminio nei quali viene iniettata “schiuma” di poliuretano ad alta densità (ARSTYL®). Il risultato: elementi decorativi di altissima precisione, ricchi di particolari o, al contrario, improntati ad essenziale modernismo. Utilizziamo lo stesso processo per produrre i nostri profili flessibili FLEX ed altri elementi decorativi (DOMOSTYL®) adatti per l'uso all'aperto.

2 Estrusione Il processo di estrusione permette di ottenere elementi decorativi sia leggeri (NOMASTYL®) sia resistenti (WALLSTYL®) a partire da polistirolo a media e alta densità. Inoltre, tutti gli elementi decorativi prodotti mediante estrusione sono resistenti all'acqua e possono pertanto essere utilizzati senza la minima esitazione in tutti gli ambienti umidi. Le superfici di incollaggio zigrinate e primerizzate in fabbrica ne agevolano la posa in opera successiva.

Qualunque elemento decorativo scegliate, siete sicuri che nei dipartimenti Sviluppo e Produzione, ingegneri, designer e collaboratori si impegnano continuamente per soddisfare gli elevati standard di qualità di NOËL & MARQUET. Oltre 70 anni di esperienza e uno spiccato spirito innovativo rendono i prodotti NOËL & MARQUET decisamente unici per attrattiva, autenticità e qualità.

Dos procesos de fabricación, dos resultados: calidad y estilo |

1 Espumas Para las formas tridimensionales más complejas, utilizamos, con esmero para los detalles, moldes de aluminio donde se ha inyectado espuma de poliuretano de alta densidad (ARSTYL®), obteniendo elementos de diseño producidos con precisión, particularmente ricos en detalles o bien de un modernismo depurado. Utilizamos el mismo proceso para la producción de nuestros perfiles especiales FLEX y elementos decorativos adecuados para uso en exteriores (DOMOSTYL®).

2 Extrusión En el proceso de extrusión, el poliestireno es moldeado a densidad media o alta para obtener elementos de diseño ligeros (NOMASTYL®) o resistentes (WALLSTYL®). Todos los elementos decorativos hechos por extrusión también son resistentes al agua y, por lo tanto, perfectamente utilizables en habitaciones húmedas. Las superficies de unión fresadas y la capa de imprimación aplicada en fábrica facilitan la instalación posterior. Cualquiera que sea el elemento de diseño que elijas, en el Departamento de Desarrollo y Producción los ingenieros, los diseñadores y todo el personal velan constantemente por responder a las exigencias en materia de calidad de la marca NOËL & MARQUET. La combinación de más de 70 años de experiencia con el espíritu altamente innovador del grupo hace que los productos NOËL & MARQUET sean absolutamente únicos en su atractivo, autenticidad y calidad.

Dois processos de fabrico, dois resultados: qualidade e estilo |

1 Espumas Para as formas tridimensionais relativamente complexas, usamos, com gosto pelos detalhes, moldes de alumínio nos quais é injetada espuma de poliuretano de alta densidade (ARSTYL®). Usamos este processo também para produzir as nossas molduras FLEX especiais, bem como os elementos decorativos (DOMOSTYL®) que podem ser utilizados no exterior.

2 Extrusão A extrusão consiste em formar elementos decorativos leves (NOMASTYL®) ou resistentes (WALLSTYL®) a partir de poliestireno de média ou alta densidade. Todos os elementos decorativos fabricados por extrusão também são resistentes à água e, portanto, podem ser usados sem hesitação em ambientes húmidos. As superfícies de colagem fresadas e o revestimento primário aplicado no seu fabrico facilitam a instalação subsequente.

Seja qual for a sua escolha entre os elementos decorativos: nos departamentos de Desenvolvimento e Produção, engenheiros, designers e colaboradores atendem sempre aos requisitos de qualidade da marca NOËL & MARQUET. A longa experiência de mais de 70 anos e o espírito altamente inovador do grupo tornam os produtos NOËL & MARQUET absolutamente únicos pelo seu apelo, autenticidade e qualidade.

CORNICES

CORNICI

MOLDURAS DE TECHO

SANCAS

Create a completely new spatial

effect with our cornices. They create an elegant and aesthetic transition between walls and ceilings. The spatial effect can vary depending on the cornice and the mounting. Cornices – many of which are for that matter suitable for the integration of direct or indirect lighting – can moreover be used to conceal unsightly transitions, cracks and smaller cables.

Con le nostre cornici, potete personalizzare lo stile del vostro interno, rimodulandone lo spazio.

Permettono di creare una transizione elegante ed estetica tra pareti e soffitto. L'effetto varia a seconda del profilo e della posizione della cornice. Le cornici, molte delle quali sono predisposte per l'integrazione di sistemi di illuminazione diretta o indiretta, permettono inoltre di nascondere imperfezioni, fessure, cavi ed altri inestetismi.

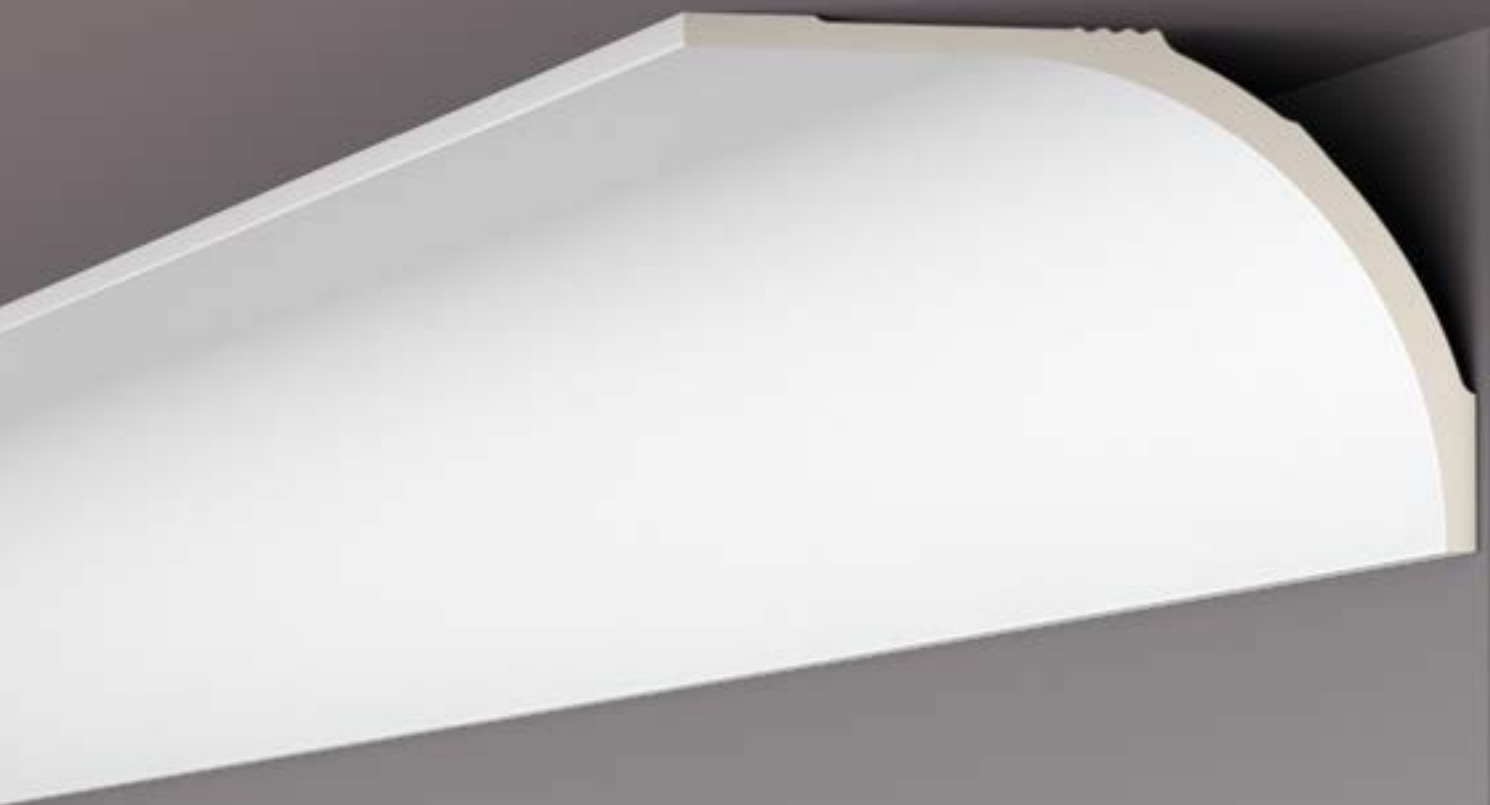

Gracias a nuestras molduras de techo, puede cambiar a voluntad la atmósfera de su espacio interior.

Forman una transición estética y elegante entre la pared y el techo. El efecto espacial varía según el perfil y la disposición de la moldura. Las molduras de techo, muchas de las cuales son adecuadas para integrar la iluminación directa e indirecta, también le permiten ocultar pasajes antiestéticos, grietas y pequeños cables.

Crie um efeito espacial completamente novo com as nossas sancas.

Criam uma transição elegante e estética entre paredes e tetos. O efeito espacial pode variar dependendo da sanca e da montagem. As sancas, muitas das quais adequadas para a integração de iluminação direta e indireta, também permitem esconder passagens, fissuras e pequenos cabos inestéticos.

CUBRE ZÓCALOS

TAPA-RODAPÉS

With our cover skirtings, renovations become simple: old profiles and tiles are easily covered without having to resort to expensive prior removal – a big relief.

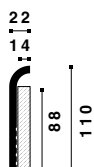

Gracias a nuestros cubre zócalos, la renovación se convierte en un juego de niños: hacen que su trabajo sea mucho más fácil, al permitirle simplemente cubrir los zócalos de madera o de cerámica ya existentes, en lugar de tener que eliminarlos primero, evitando así costes innecesarios en la retirada de los mismos que en muchos casos son difíciles y engorrosos de quitar.

Grazie ai nostri copribattiscopa, gli interventi di ristrutturazione diventano un gioco da ragazzi. Agevolano notevolmente il lavoro, permettendo di ricoprire con estrema facilità i battiscopa o le piastrelle esistenti, senza doverli rimuovere, evitando un'operazione fastidiosa e costosa.

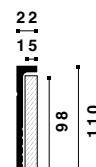

Com os nossos tapa rodapés, as renovações tornam-se muito fáceis. Os rodapés antigos e os azulejos são facilmente cobertos sem ter que recorrer a uma remoção prévia e cara, um verdadeiro alívio!

PROFILI FUNZIONALI
PERFILES FUNCIONALES
PERFIS MULTIFUNCIONAIS

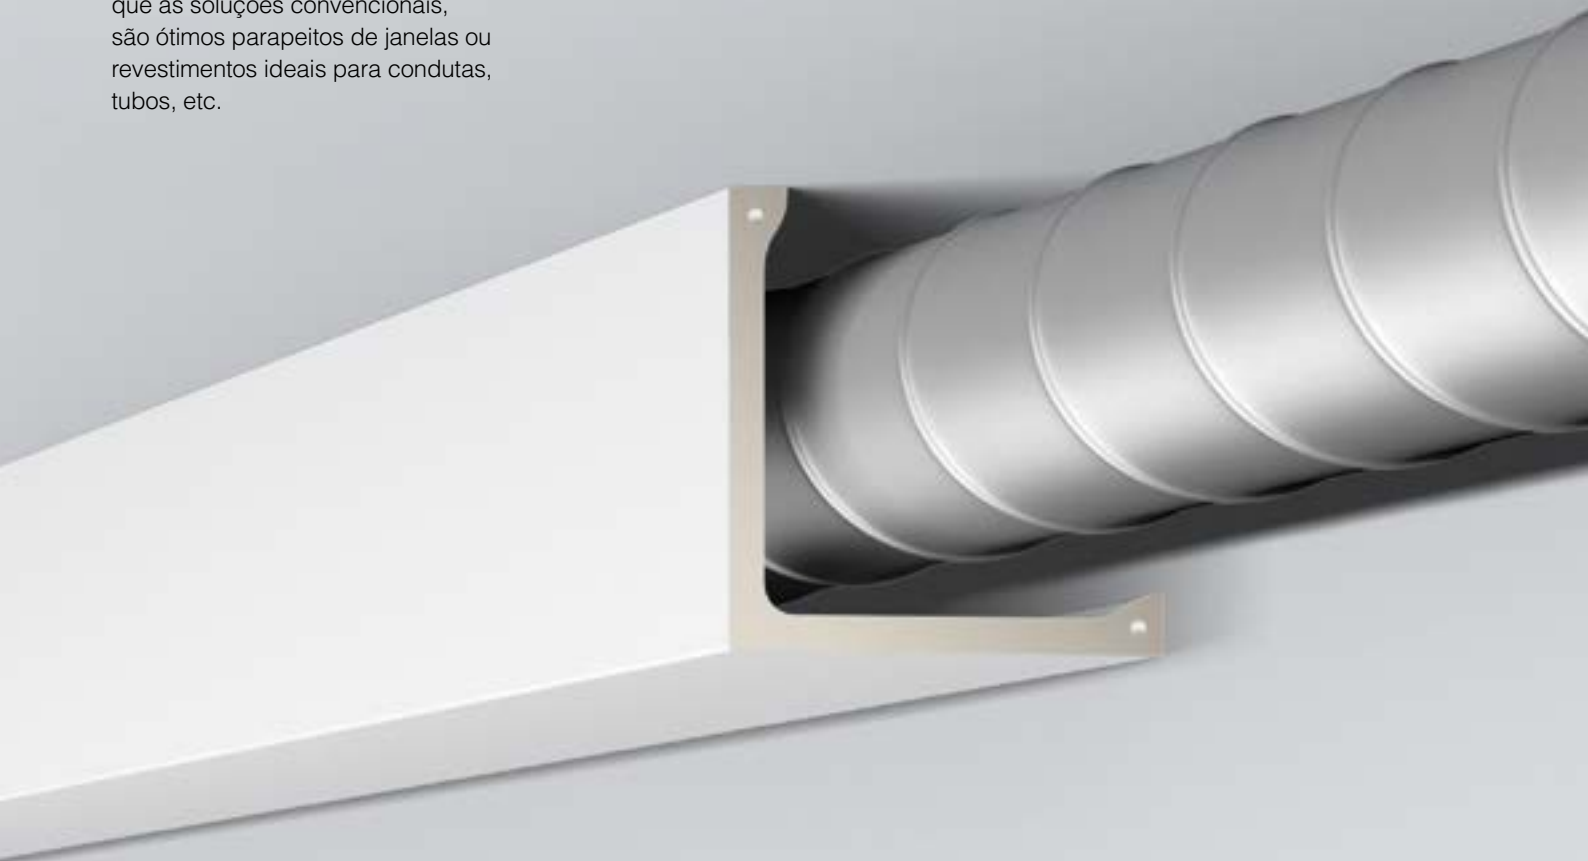

These functional profiles are significantly more suitable than conventional solutions as window soffit or ideal for cladding ducts, pipes, etc.

I profili funzionali consentono una posa in opera notevolmente più rapida e pratica rispetto alle soluzioni convenzionali e offrono quindi soluzioni ideali adatte per rifiniture di interni di finestre o coperture di tubi, cavi, etc.

Claramente más rápido de implementar que las soluciones convencionales, los perfiles funcionales son adecuados como marcos de ventanas o cubiertas para tuberías, conductos, etc.

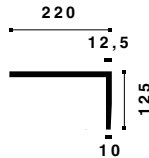

Estes perfis multifuncionais são muito mais rápidos de instalar do que as soluções convencionais, são ótimos parapeitos de janelas ou revestimentos ideais para condutas, tubos, etc.
