# Cornices

<sup>EN</sup> Create a completely new spatial effect with our cornices. They create an elegant and aesthetic transition between walls and ceilings. The spatial effect can vary depending on the cornice and the mounting. Cornices – many of which are for that matter suitable for the integration of direct or indirect lighting – can moreover be used to conceal unsightly transitions, cracks and smaller cables.

## *Moulures de plafond*

<sup>FR</sup> Grâce à nos moulures de plafond, vous pouvez changer à volonté l'ambiance de votre espace intérieur. Elles forment une transition esthétique et élégante entre le mur et le plafond. L'impression d'espace varie selon le profilé et la disposition de la moulure. Les moulures de plafond, dont beaucoup conviennent à l'intégration d'un éclairage direct et indirect, vous permettent aussi de dissimuler les passages, fissures et petits câbles inesthétiques.

## *Molduras de techo*

<sup>ES</sup> Gracias a nuestras molduras de techo, puede cambiar a voluntad la atmósfera de su espacio interior. Forman una transición estética y elegante entre la pared y el techo. El efecto espacial varía según el perfil y la disposición de la moldura. Las molduras de techo, muchas de las cuales son adecuadas para integrar la iluminación directa e indirecta, también le permiten ocultar pasajes antiestéticos, grietas y pequeños cables.

## *Sancas*

<sup>PT</sup> Crie um efeito espacial completamente novo com as nossas sancas. Criam uma transição elegante e estética entre paredes e tetos. O efeito espacial pode variar dependendo da sanca e da montagem. As sancas, muitas das quais adequadas para a integração de iluminação direta e indireta, também permitem esconder passagens, fissuras e pequenos cabos inestéticos.

# Cover skirtings

Surplinthes de rénovation

Cubre zócalos

Tapa-Rodapés

EN With our cover skirtings, renovations become simple: old profiles and tiles are easily covered without having to resort to expensive prior removal – a big relief.

FR Grâce à nos surplinthes, la rénovation devient un jeu d'enfant : elles vous facilitent considérablement le travail, en vous permettant de recouvrir simplement vos anciennes plinthes en bois et en carrelage, au lieu de devoir les enlever au préalable, ce qui s'avère souvent fastidieux!

ES Gracias a nuestros cubre zócalos, la renovación se convierte en un juego de niños: hacen que su trabajo sea mucho más fácil, al permitirle simplemente cubrir los zócalos de madera o de cerámica ya existentes, en lugar de tener que eliminarlos primero, evitando así costes innecesarios en la retirada de los mismos que en muchos casos son difíciles y engorrosos de quitar.

PT Com os nossos tapa rodapés, as renovações tornam-se muito fáceis. Os rodapés antigos e os azulejos são facilmente cobertos sem ter que recorrer a uma remoção prévia e cara, um verdadeiro alívio!
