

BISAZZA

WOOD

BISAZZA

WOOD

Wood è un parquet prefinito in legno di rovere, disponibile in cinque formati e in dieci colorazioni, tutte formulate per l'alta resistenza ai raggi UV.

Costituito da uno strato superiore di rovere di 4 mm incollato ad un multistrato fenolico di betulla di 11, per un totale di 15 mm, Wood è assemblato rispettando i più severi canoni di produzione, e supera con ottimi risultati il test di delaminazione. Il sistema ad incastro rende veloce l'installazione e contribuisce a mantenere il pavimento indeformabile nel tempo.

La superficie è spazzolata e finita con una vernice, che rende il prodotto estremamente resistente alle macchie e allo sporco, e adatto all'alto traffico in ambienti domestici e al medio traffico in spazi commerciali.

Wood può essere posato su pavimenti con riscaldamento radiante.

Wood risponde a tutti i requisiti previsti dalla normativa europea per i pavimenti in legno.

Su richiesta è disponibile la classe di reazione al fuoco Cfl-s1.

Per forma, dimensione e spessore gli elementi in legno quadrati ed esagonali sono compatibili con le piastrelle in cemento della serie Bisazza Cementiles, rendendo possibili accostamenti tra i due materiali.

La collezione si arricchisce di una serie di pattern, alcuni dei quali prevedono dei disegni ottenuti con incisione al laser, che permette di decorare con assoluta precisione la superficie del legno.

Wood is a pre-finished oak wood parquet floor available in five sizes and in ten different colours formulated to ensure high resistance to UV rays.

Comprising a 4 mm-thick top layer of oak glued to an 11 mm-thick phenolic birch plywood layer, making up a total thickness of 15 mm, Wood is assembled in compliance with the most stringent production standards, and passes delamination tests with excellent results. A simple fit-together connection system makes for rapid installation and also contributes towards rendering the floor form-stable over time.

The surface is brushed and finished with a varnish, which makes this product extremely resistant to stains and dirt, and suitable for high traffic on domestic floors and average traffic in commercial establishments.

Wood can be laid on floors with radiant heating.

Wood complies with all the requirements set out in European regulation for wooden floors.

Fire reaction class Cfl-s1 is available upon request.

In terms of shape, size and thickness, the square and hexagonal wooden elements are compatible with the cement tiles in the Bisazza Cementiles series, making it possible to combine these two materials in a single application.

The collection is embellished by a series of patterns, some of which entail designs achieved using laser engraving.

MADE IN ITALY

Wood è prodotto interamente in Italia.
The Wood collection is fully made in Italy.
Wood est entièrement produit en Italie.
Wood ist ausschließlich in Italien hergestellt.
Wood se produce totalmente en Italia.

EN 14342:2013

La collezione Wood risponde ai requisiti dettati dalla normativa sulla marcatura CE relativa ai pavimenti in legno.
The Wood collection fully complies with all the CE regulations.
Wood respecte toutes les conditions requises par la réglementation européenne sur le marquage CE des parquets.
Wood erfüllt alle Anforderungen der EU Normen hinsichtlich der CE Kennzeichnung in Bezug auf Holzfußböden.
Wood respeta todos los requisitos dictados por la normativa europea sobre la marcación CE para suelos de madera.

Tutti i prodotti a catalogo, su richiesta, sono disponibili con classe di reazione al fuoco Cfl-s1 (EN 13501-1:2009). L'utilizzo di Wood a pavimento è pertanto consentito anche in ambienti pubblici e privati dove è richiesto questo requisito di sicurezza antincendio o requisiti equiparabili nelle specifiche normative nazionali.

The reaction to fire certification Cfl-s1 (EN 13501-01:2009) is available on demand for all the products on our catalogue. Therefore, Wood timber flooring can also be laid in public and private areas where fire prevention or similar safety requirements are needed, in accordance with specific national rules.

Sur demande uniquement, tous les produits présentés dans ce catalogue peuvent être certifiés Cfl-s1 pour la résistance au feu (EN 13501-1:2009), ce qui permet de poser WOOD au sol dans des milieux résidentiels ou publics où cette certification de sécurité incendie, ou toute autre attestation similaire, est demandée par la réglementation nationale en vigueur.

Alle Produkte im Katalog sind auf Anfrage mit Cfl-s1 Brandschutz Zertifizierung (EN 13501-1:2009) erhältlich. Der Einsatz des Bodenbelags Wood ist daher sowohl in öffentlichen als auch in privaten Bereichen möglich, wo diese Anforderung des Brandschutzes oder vergleichbare Anforderungen nach spezifischen nationalen Richtlinien vorgegeben sind.

Todos los productos de nuestro catálogo están disponibles, bajo petición, con certificación Cfl-s1 reacción al fuego (EN de reacción al fuego 13501-1:2009). La colección Wood también está homologada para su uso en ambientes públicos y/o privados y donde este requisito de seguridad contra incendios o equivalentes, sea requerido por las especificaciones reglamentarias nacionales.

*Information sur le niveau d'émission de substances volatiles dans l'air intérieur, présentant un risque de toxicité par inhalation, sur une échelle de classe allant de A+ (très faibles émissions) à C (fortes émissions)

Certificazione francese sulle emissioni di Composti Organici Volatili. Tutti i prodotti Wood che sono stati testati secondo le modalità previste dal Decreto francese n°2011-321 hanno conseguito la classe di emissione A+, la più restrittiva tra quelle previste dal medesimo Decreto.

French certification about the emissions of Volatile Organic Compounds. All the Wood collection products, tested according to n°2011-321 French Decree, have obtained the A+ rating, the highest among those in the decree.

Certification française sur les émissions des Composés Organiques Volatils. Tous les produits Wood testés selon la méthode prévue par le Décret français n°2011-321, ont obtenu le classement sur le niveau d'émission A+, l'une des plus strictes réglementations prévues dans ce même Décret.

Französische Zertifizierung über die Emission von flüchtigen organischen Verbindungen. Alle Produkte Wood, die gemäß der in der französischen Verordnung n°2011-321 vorgesehenen Bestimmungen getestet worden sind, sind der Emissionsklasse A+ zugeordnet worden, die von dieser Verordnung als strengste Klasse definiert ist.

Certificación francés las emisiones de Compuestos Orgánicos Volátiles. Todos los productos Wood, como se desprende de los análisis efectuados por el Decreto francés n° 2011-321, han conseguidos la clase de emisión A+, la más restrictiva entre las clases definidas por el mismo Decreto.

Certificazione della catena di custodia che garantisce la provenienza da foreste gestite secondo rigorosi standard ambientali, sociali ed economici. Tutti i prodotti a catalogo sono disponibili con certificazione FSC™.

Certification of the chain of custody which ensures that the raw material hails from forests regulated according to strict environmental, social and economic standards. All the products in the catalogue are available with FSC™ certification.

Certification de la chaîne de conservation qui garantit la provenance de forêts gérées selon de rigoureux standards sociaux, économiques et environnementaux. Tous les produits de notre catalogue sont disponibles avec certification FSC™.

Zertifizierung der Chain-of-Custody, die Herkunft des Holzes von Wäldern garantiert, die nach strengen ökologischen, sozialen und wirtschaftlichen Standards bewirtschaftet werden. Alle Produkte im Katalog sind mit FSC Zertifizierung erhältlich.

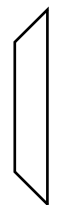

Certificación de la cadena de vigilancia que garantiza la procedencia de bosques explotados con arreglo a rigurosos estándares medioambientales, sociales y económicos. Todos los productos en nuestro catálogo están disponibles con certificación FSC™.
