La proposta Bisazza per i pavimenti si arricchisce della nuova collezione Marmo. In linea con la sua vocazione decorativa, Bisazza propone una serie di pattern ispirati alla tradizione dei pavimenti lapidei policromi, rivisitati in chiave contemporanea. Quadrati, esagoni, triangoli e trapezi si compongono in disegni bicolore, o in decori dall'effetto tridimensionale.

Per un migliore risultato, e per ottenere una superficie continua, si raccomanda la posa del pavimento con levigatura e lucidatura in opera. Gli elementi della collezione Marmo sono comunque prefiniti - levigati, con finitura lucida - e possono, quindi, essere posati anche con fuga da 1 mm, senza levigatura e lucidatura in opera.

The Bisazza flooring range now includes the new Marble collection. With its unrivalled heritage of design and decoration, Bisazza offers a series of patterns inspired by the tradition of an eclectic use of colours for stone flooring, with a contemporary feel. Squares, hexagons, triangles and trapezoids come together in two-tone patterns and decorative designs with a 3D look.

For better results, and in order to obtain a continuous surface, it is recommended installing the floor with sanding and polishing on site. However, since the elements of the Bisazza Marble collection are prefinished - sanded, with polished finish - they can therefore be installed with 1 mm grout joints, without sanding and polishing on site.

▲ Nel catalogo sono evidenziati quei decori che, per la natura geometrica del disegno, non si prestano alla posa con fuga, e devono quindi essere levigati e lucidati in opera.

▲ Indicates that the particular design does not lend itself to installation with grout joints.
